Getting started and help

Four steps to your first login, and where to get help.

1. **Open the link**
   Use the link shared by LIB: **app.libeducation.com**.

2. **Sign in**
   Enter the username and password LIB gave you.

3. **Set a new password**
   Change it after your first login so only you know it.

4. **Add it to your home screen**
   Android: tap Install. **iPhone:** tap Share, then Add to Home Screen.

> **FORGOT YOUR PASSWORD?**
> Call or WhatsApp LIB on +91 98453 93178 and we will reset it.

Getting help

Inside the app

- **Help** button: answers how-to questions
- **Support** button: report an issue
- **Chat**: message teachers, students and parents

Contact LIB

- WhatsApp / phone: +91 98453 93178
- Email: kakali@kakali.in
- Website: www.libeducation.com

You only see your own information. Issues you raise show a status (Open, In Progress or Resolved) and LIB can reply with a note.

The admin menu

The menu on the left (☰ menu at the top on a phone) is in groups.

Group	Pages
Dashboard	Stats, classes expiring, demo funnel, AI students at risk
Daily work	Class Log, New registrations, Communication, Demo Bookings, Support, Rebuild Pending Classes
Money	Fees, Payroll, Expenses, Reports & Export
People	Students & Subscriptions, Teachers & Subjects, Parents
Teaching	Study Plans, Homework, Question Bank
System	Settings, Manage Admins, AI, Audit Log
Superadmin	Superuser admins only: Academic Year, backups, danger zone

QUICK HELP EVERYWHERE

Tap **?** next to a heading for help on that card. The **? Help** button at the top has the Quick Guide and the Help bot.

LINKS YOU CAN SHARE

Each page has its own address, for example **.../#fees** or **.../#setup**, so a bookmark opens that page.

Your month at a glance

The jobs that come round every month.

When	Job	Where
Every day	Log classes, answer chats and support, follow up demos and new registrations	Class Log, New registrations, Communication, Support, Demo Bookings
1st to 7th	Raise the month's fee requests and send fee messages	Fees › Raise fee requests
As payments come	Confirm Razorpay payments, mark requests paid	Fees
Any time	Send a Short reminder to families still due	Fees › Pending fee requests › Message
Month end	Check payroll, mark teachers paid, print salary slips	Payroll
Month end	Add expenses, check net profit	Expenses, Reports
When timetables change	Update Class Frequency, rebuild the schedule	Teachers & Subjects, Rebuild

Class Log

Record a class on a teacher's behalf.

1. **Pick the date and teacher**
   Search by name, ID or mobile, then tap the teacher.
2. **Fill in the class**
   Student, subject, Group / Individual, Online / Offline, Present or Absent, number of classes and remarks.
3. **Log class**
   The student's classes left show before you save, with a warning if they have none.

> **ABSENT USES A CLASS**
> Absent counts like Present: it uses one of the student's classes.

The register

- Below the form: the teacher's classes for the **Selected day** or the **Whole month**, with a month total.
- Dates show the weekday, for example **Tue, 27 Oct 2026**.

New registrations

Families register online; you decide who becomes a student.

1. **Share the link**
   app.libeducation.com/register.html (also on the login screen). On the page: 📋 Copy link, or type a mobile and 📤 Send link on WhatsApp.

2. **Check the form**
   New forms show here, with a count on the menu and Dashboard. ⚑ flags: mobile already a family, had a demo, several forms. 📞 Call or 💬 WhatsApp to confirm.

3. **Accept**
   Correct name, grade, board, mode, type and academic year, then **Add student**. Same mobile as a family: add as brother/sister.

4. **Send the logins**
   Accept makes the parent login (mobile) and student login (student code). Send both with the 📤 buttons.

- Subjects are not enrolled for you: open the student and enrol them with a teacher. The form's subjects, school and message show on the student's page; **View original form** shows it all as sent.
- **Reject** (Reopen undoes it) or tick forms and **Archive**. Nothing is deleted: **Show archived** brings them back.

> **JUNK IS BLOCKED**
> Bots are stopped, at most 3 forms per mobile and 30 a day in total, and nothing becomes a student until you Accept.

Demo Bookings

Demo bookings from the website, from first call to admission.

New	Just booked: call the family, then Confirm a teacher and time
Scheduled	Mark done after the demo, Mark lost, Reschedule or Cancel
Done	Demo given: Convert to Student, or Mark lost
Converted	Student record made; the teacher gets a ₹100 bonus
Lost	Did not join (with an optional reason); Reopen brings it back

- **Paid / Not paid:** a Razorpay payment for a demo marks the booking Paid by itself. One the app could not match shows at the top: pick the booking, or **Not a demo**.
- **Convert to Student** fills a new student record from the booking; → **Open student record** takes you there.

Demo Register

- Every demo a teacher gave. Teachers mark their own demos Done from their Dashboard.
- You can set any status, add a Lost reason, or go straight from Pending to Converted with **Link & Convert**.
- **Demo results** shows each teacher's demos, Converted % and why demos were lost.

Communication and Support

Talk to everyone, and fix what they report.

Chat

- **New message**: one-to-one with a teacher, student or parent
- **New group**: several people at once
- Unread counts on the menu and the 💬 button

Announcements

- A notice above the menu bar
- For everyone, a whole role or one person
- Stays until dismissed, expired or deleted

Support Inbox

- Problems reported with the Support button by teachers, students and parents.
- Filter by Open, In Progress, Resolved or All. Reply and change the status; the person sees both.

Rebuild Pending Classes

A fresh schedule of upcoming classes from Class Frequency.

1. **Choose the scope**
   All active students, or one student.

2. **Preview Rebuild**
   Shows per student and subject: classes left, future Pending classes to remove, overdue classes kept, weekly frequency.

3. **Rebuild**
   Removes only future Pending classes and makes new ones. Subscription limits and teacher clashes are still checked.

WHAT STAYS

- Done classes, overdue Pending classes and other statuses are never touched.
- Students with no Class Frequency are skipped and listed.

Placeholder times

- New classes get **00:00** (Group) or **01:00 / 02:00** (Individual).
- Teachers see them under **Class timings to correct** in Pending Action Items and put in the real time.

Fees page

Prices, renewals and every payment in one place.

Card	What it does
Students needing renewal	Zero or negative balances, and enrolled students who never paid
Razorpay payments to confirm	Fee payments from the Razorpay page, each with a suggested family
Pending fee requests	Every unpaid request, grouped by family
Raise fee requests	The month's requests for every student in one go
Fee Message Settings	UPI ID, QR code and contact number used in fee messages
All subscription payments	Every payment for a student or everyone, by month
Fee setup	Per-class rates by category, Group / Individual and Online / Offline
Discount structure	Discount tiers by number of classes
Fee calculator	Works out a fee and can push it as a fee request

RATES

A student's **Special fee rate** (on their page) replaces Fee setup wherever their fee is worked out. A missing rate means a request can't be raised.

Raise fee requests

One run at the start of each month.

1. **Pick the Target Month**
   Then tap **Preview Fee Requests**. Preview works any day and saves nothing.

2. **Check the preview**
   Grouped by family, each row with classes, amount and its working. Change classes or amount, or untick a row.

3. **Look at Not raised**
   Who was left out and why: a request already pending, enough classes left, no rate, archived.

4. **Confirm**
   Only on the **1st to 7th** of the month, once a month. **Reset** removes the run so you can do it again.

How the classes are worked out

- **Class Frequency:** each saved weekday counted in the month, minus clearly cancelled teacher-leave classes.
- **Classes left:** paid minus used (Absent counts as used). Owed classes are shown separately.
- **Packages:** a last payment of 30, 50, 60 or 100 classes asks for the same package again.
- **Amount:** rate × classes, less the bulk discount: the best tier reached by the request, the child's subjects added up, or the whole family added up. Tick **No discount** on a row or family for this run only.

KEEP A COPY

Download Excel saves the whole run.

Fee messages and getting paid

One message per family; confirm each payment.

Send the message

1. **Tap Message**
   On any pending request. It makes one message for the whole family.

2. **Check the text**
   Each child's subjects, classes and amount, the total, how it was worked out, UPI and Razorpay details and the parent login.

3. **Send it**
   On a phone the WhatsApp button opens the app. On a computer: 📤 **Desktop** (WhatsApp app) or 📤 **Web**.

- Tick **Short reminder** for a follow-up: only the opening line changes to "gentle reminder ... still due".
- Sending records the date, so you can see when the family was last reminded and how many times.
- Brothers and sisters are one family when they share a parent login or mobile. Tick **Bill separately** on a student to keep them out.

Mark it paid

- **Mark paid** for one request, **Mark all paid** for the whole family with one date and reference. Type the **Amount received**.
- **Part payment** (less than due, or only some of a family's discounted requests): the discount is worked out again on the classes paid for, the rest becomes a new pending request, extra money goes in Remarks. You confirm first.
- **No bulk discount** on a student's page switches the discount off for the whole family.

- **Razorpay payments to confirm:** check the suggested family and **Confirm**; wrong family? Pick another. **Not a fee** sets it aside.

Payroll, expenses and reports

What you pay out, and what is left.

Payroll

- Classes × the teacher's rate, plus ₹100 for each Converted demo
- Adjustments with a note, Mark paid
- 📄 Salary Slip, or 📄 Print all salary slips

Expenses

- Rent, electricity, internet and so on
- Not teacher pay: payroll is counted separately

Reports & Export

Report	Shows
Student report, balances	Classes and balances per student
Net profit	Fee collection minus payroll and expenses
Classes per teacher, register	Each teacher's classes for the month
Razorpay payments	Every Razorpay payment for the month, fee or demo
Refunds, Excel export	Refunds issued; download the data

Students & Subscriptions

Everything about one student on one page.

Section	What you do there
Details	Contact details, grade, category, board, parents' numbers
Subject enrollment	Add or remove subjects; needed before payments and classes
Subscription balances	Subscribed, used and left per subject and type
Fee requests	Raise one (Calculate fills it), Message, Mark paid
Record payment	Classes bought; the amount fills in from the rates
Refund, Transfer	Refund unused classes, or move them to another subject
Subscription history	Active, upcoming and expired payments, with receipts
Special fee rates	An agreed per-class rate for this student, with dates
Notes, attendance	Private teacher notes and the full attendance record

SPECIAL FEE RATES

- Set subject, Group / Individual, rate (and an Offline rate if different), from and until.
- Used everywhere this student's fee is worked out. Discount tiers still apply.
- Saved requests and payments don't change.

Teachers, subjects and Class Frequency

Who teaches what, and how often each student comes.

- **Teachers & Subjects:** add teachers and subjects and set which teacher teaches each subject.
- Transfer a student or all of a departing teacher's students to another teacher.

Class Frequency

1. **Open it**
   The **Class Frequency** button at the top of Teachers & Subjects.

2. **+ New Frequency or Edit**
   Pick the student and subject, tick the weekdays and set the classes on each day (60 minutes each).

3. **Fill the gaps**
   Pairs that are **Not configured** are listed; teachers can set their own students too.

USED BY

- Raise fee requests, to count the month's classes.
- Rebuild Pending Classes, to make the schedule.
- Saving it never changes classes already scheduled.

Parents

One parent login per family.

1. **Create all parent logins**
   Preview lists every family without a login. Nothing is saved until you press Create.

2. **Login details**
   Login ID and first password are the parent's 10-digit mobile. Brothers and sisters share one login.

3. **Send them**
   📤 **WhatsApp** sends each family its login. You can resend from the parent's page.

- **Manage parent logins:** search by mobile, parent or child, then link or unlink children.
- Parents are asked to change the password after their first login.

Study Plans, Homework and Question Bank

Follow what teachers set.

Study Plans

- Read-only view of every plan and progress
- Textbook library: rename, retag or delete books

Homework

- Every homework set by every teacher
- Filter by teacher, student or status

Question Bank

- Review Queue, Full Question Bank, Archived
- Practice Papers and Past Papers

TEACHER ACCESS

Teachers see the Question Bank and Research tabs only when you switch them on in Settings.

Settings, admins, AI and audit

How the app is set up.

Page	What is there
Settings	Grades, categories, boards, subject names; Question Bank access and Research access per teacher; Star Teacher switch, start date and leaderboard; add users; change your password
Manage Admins	Add or remove admin accounts
AI	Master switch, AI access per role and per person, AI usage and estimated cost
Audit Log	Every change made in the app, login activity and App usage (who uses which feature)

Superadmin tools

- Only superuser admins see this menu. Each card opens with the unlock password.
- **Academic Year: Advance everyone** sets the new year and moves every student (except Adult) up a grade. **Set year only** and **Fill blank student years** never change grades.
- **Export all data** and **Import backup**.
- **Danger zone:** remove old Audit and Login entries, clear all data, audit logging on or off.

> **CANNOT BE UNDONE**
>
> Export a backup before any danger-zone action.

Quick reference

I want to... where do I go?

I want to...	Go to
Log a class	Class Log
Register a new student	New registrations (send the form link)
Book or follow up a demo	Demo Bookings
Raise this month's fees	Fees › Raise fee requests
Send a fee message or reminder	Fees › Pending fee requests › Message
Confirm a Razorpay payment	Fees › Razorpay payments to confirm
Record a payment	Students › student › Record payment
Give a student a special rate	Students › student › Special fee rates
Set weekly classes	Teachers & Subjects › Class Frequency
Rebuild the schedule	Rebuild Pending Classes
Make parent logins	Parents › Create all parent logins
Pay teachers	Payroll
See profit	Reports › Net profit
Turn on QB or Research	Settings
Turn AI on or off	AI
