Getting started

Four steps to your first login

1

Open the link

Use the link shared by LIB: app.libeducation.com

→

2

Sign in

Username and password given by LIB

→

3

Set a new password

Change it after your first login

→

4

Add to home screen

Android: Install button. iPhone: Share, then Add to Home Screen

Forgot your password?

- Call or WhatsApp LIB on +91 98453 93178 and we will reset it

Cannot see something?

- You only see your own data. Use Support to report a problem.

Getting help

Three ways to get an answer quickly

Inside the app

- Help button: answers how-to questions
- Support button: report an issue
- Chat: message the admin or your colleagues

Contact LIB

WhatsApp / phone: +91 98453 93178

Email: kakali@kakali.in

Website: www.libeducation.com

Good to know

- Issues show a status: Open, In Progress or Resolved
- LIB can reply with a note
- You only see your own information

Your portal

Seven tabs, all scoped to your own classes and students

Tab	What you do there
Dashboard	Today’s classes, earnings, alerts and AI tools
Class Schedule	Create, run and export your timetable
Availability	Weekly windows, leave, free-slots report
My Attendance Report	Your history and students’ balances
Give Attendance	Record classes you have held
My Profile	Contact details, bank and UPI, online class link, photo
Setup	Change your password

Dashboard

Everything you need at the start of the day

Given
Classes given today

Earned
Earned this month so far

Renew
Students needing renewal

Chat
Unread chats

Today's classes
Time, student, subject, type, status

My earnings
Hidden until you enter your password

Month in review
Last month's classes and earnings

Student milestones
Alerts at 25, 50, 100 and 200 classes

Low balance alert
Students down to a few classes

Not seen in a while
No class for 10 days or more

My demo classes
Status and bonus earned

Expiring soon
Classes about to lapse

Class schedule

Plan your classes and mark them done

Create

- Weekly pattern: pick days and times, repeats until the subscribed count is filled
- Every class is 60 minutes
- Extra one-off class, e.g. a makeup
- Never beyond the subscribed count

Run

- Today or By month view
- Filter by student and subject
- Mark done: Present or Absent, count, mode, remarks
- Edit date and time, undo
- Export to Excel

Rules

- Individual students never share a slot
- You cannot schedule on your own leave days
- Students and parents see the schedule read-only

Give attendance and your report

Keep the register accurate

Give Attendance

- Choose student, subject, type and mode
- Present or Absent, with remarks
- Shows the balance left for that student
- Warns if there are no classes left or the entry is a duplicate
- You can record the current month only; for earlier months contact the admin

My Attendance Report

- Classes taught, by date, student and subject
- Total present, absent and students taught
- Subscription balances for every student mapped to you

Availability, leave and free slots

Tell the centre when you can teach and when you cannot

Availability

- Weekly windows per day
- Advisory only: classes can still be scheduled outside when needed

Leave

- From and to dates, with a reason
- Blocks new scheduling in that window
- Classes already booked are left as they are

Free slots report

- Free time inside your availability, after booked classes
- One day or the month from today

Earnings and salary slip

See what you have earned, and when you were paid

My earnings

- Hidden behind your password and hidden again automatically
- Base pay from classes taught × your rate
- Plus demo bonus, plus or minus any adjustment with its note

Payment status

- Net payable for the month
- Paid, with date and reference, or Pending
- Printable salary slip

Your details

- Bank account, IFSC and UPI ID: enter them once; after that only the admin can change them
- Update your mobile and online class link any time

Demos and bonus

₹100 for every demo student who joins

Pending	Demo given, student not enrolled yet
Converted	Student enrolled; ₹100 bonus earned
Cancelled	Demo did not go ahead; no bonus

How it works

- You see your own demos: date, time, subject, board, status, bonus
- Contact details of demo students are not shown to teachers
- The bonus is added to your payroll for the month of conversion
- The dashboard shows today's demos and the month's bonus

Your students

Notes, milestones and gentle nudges

Student notes

- Write a short note for a student
- The student sees it on their home screen
- AI can draft a progress note

Milestones

- Celebrates 25, 50, 100 and 200 classes with a student
- Dismiss each card once seen

Alerts

- Students needing renewal
- Low balance: only a few classes left
- Not seen for 10 days or more

AI tools for teachers

Claude Haiku, on or off per user

Summaries and notes

- Monthly summary of your classes
- Student progress note

Messages to parents

- Absent follow-up message
- Parent update draft

Ask AI

- Questions about your own classes only
- Never sees other teachers' data

Chat, profile and ID card

Everything personal in one place

Chat and help

- Chat with admin and colleagues
- Notifications and announcements
- Help button for how-to answers
- Support to report an issue

My Profile

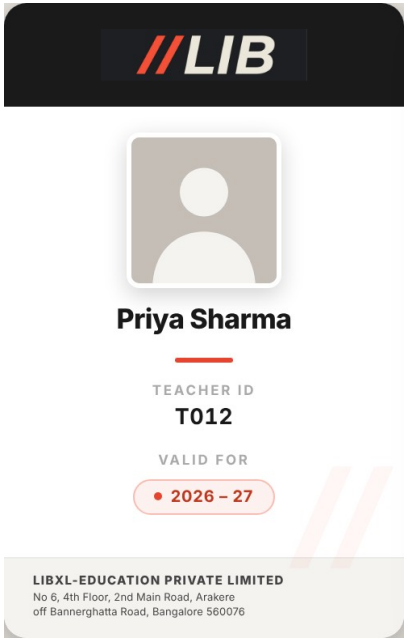

- Mobile number, bank and UPI details
- Online class link shown to your students
- Photo from gallery or camera

ID card and phone

- Teacher ID card, once your photo is uploaded
- Add to Home Screen from the install prompt

Your ID card

Your Teacher ID card, ready to print once your photo is uploaded

What is on it

- LIB logo, your photo and name
- Teacher ID code
- Valid for the current academic year

How to get it

- Upload your photo in My Profile (gallery or camera, up to 5 MB)
- Tap ID Card, then Print or Save as PDF
- Photo upload is a must: the card cannot be generated without it

Study Plans

Create a topic roadmap for each student and subject

Dashboard & Report view

- Dashboard shows a **"X without a plan"** stat card — tap it to go straight to Study Plans
- Study Plans tab opens in **Report view** by default
- Filter by status, subject or student name
- Each row shows the student, subject and plan status at a glance

Creating a plan

- Tap a student's row to open their plan
- Select the subject, then tap **Edit** to switch to edit mode
- Tap **+ Add topic** to add topics one at a time
- Edit the topic name and optional notes by typing in the field
- Drag the ☰ handle to reorder; tap ✕ to delete a topic
- Tap **Save** when done — students and parents can see it immediately

✨ AI suggest topics

- Available only when the plan has **no topics**
- Tap ✨ **Suggest topics** — AI generates a list of topics for that subject
- Review the suggestions, then save; edit any topic name or notes after
- Button reappears if you later delete *all* topics from a plan

Topic status

Not started	Default when created
In progress	Currently being covered
Done	Topic completed

One plan per student per subject. Students and parents see it in read-only mode.

Quick reference

I want to… where do I go

I want to...	Go to
Plan my classes	Class Schedule
Record a class I held	Give Attendance
Set leave	Availability
See what I earned	Dashboard, My earnings
Print my salary slip	My Attendance Report
Update my bank details	My Profile
Report a problem	Support button

HOMEWORK NEW

Homework

Assign, track and review student work from one place

What you can do
Assign** homework to any student, for any subject
Set title, description, due date and total marks
Attach a reference file for the student
Link homework to a Study Plan topic
Track status: Assigned → Submitted → Reviewed
Mark complete when student has done the work
Review with marks and written feedback
Reopen homework if the student needs to redo it
Send a WhatsApp reminder or review summary

Status flow

- **Assigned** — Homework sent to student
- **Submitted** — Student has done the work
- **Reviewed** — Teacher gave marks + feedback

Default view

Homework tab opens showing Assigned homework by default. Use the filters to see Submitted or Reviewed work.

HOMEWORK

Assigning homework

Tap + Add Homework in the Homework tab to open the form

Fill the form

- Choose a student and subject
- Enter a title (required)
- Write a description — the text box is large so you can give detailed instructions
- Set the due date
- Enter Total Marks (e.g. 20) — the student's score will be out of this
- Link to a Study Plan topic (optional)

Attach a reference file

- Tap Choose File to upload a PDF, image or document for the student
- The file is stored securely and accessible from the homework card
- Leave blank if no file is needed

Edit homework

- Tap Edit on any homework card to change title, description, due date, total marks or the linked file
- The full form reopens pre-filled — update what you need and Save
- Editing works for any status: Assigned, Submitted or Reviewed

HOMEWORK

Tracking homework

Filter the list to focus on what needs action

Filters

Status filter	Assigned (default) · Submitted · Reviewed
Student filter	Pick any student mapped to you
Both together	E.g. Submitted homework for one student

Each card shows

- Student name, subject, title and due date
- A LATE badge if past due
- The submission photo (if submitted)
- Score and teacher feedback (if reviewed)

Status meanings

Assigned	Waiting for student to submit
Submitted	Student submitted — ready for your review
Reviewed	You have given marks and feedback

LATE — Overdue — still shows in Assigned filter

HOMEWORK

Actions on homework cards

Buttons appear based on the current status of the homework

✓ Mark complete

- Appears when status is Assigned (or overdue)
- Tap to move status to Submitted — confirms student did the work
- Use this if the student completed homework in class and you want to record it
- You can still Mark reviewed afterwards to add marks and feedback

Mark reviewed

- Appears when status is Submitted
- Opens a review panel: enter Marks scored and Total Marks
- The large multi-line Feedback box lets you write detailed comments
- Tap Save Review — status moves to Reviewed
- Student and parent can see the score and feedback instantly

■ Reopen · ■ WA buttons

- Reopen: moves status back to Assigned (use if student needs to redo)
- ■ Remind: opens WhatsApp to the student/parent — sends a reminder for Assigned or late homework
- ■ WA (on Reviewed): sends the review summary — score and feedback — to the student via WhatsApp
- Delete: permanently removes the homework record
